## **Logistics** **(Local Events)**

Local events under 300 people require almost zero logistics from you! Simply show us to our service location and provide us adequate power and we'll be ready to serve in about 45-60 minutes. We provide all staffing, coffee, dairy, ice, disposables, condiments, linens, and extension cords.

## **Logistics** **(Destination Events)**

For destination or multi-day events, we'll need to coordinate with the caterer. Specifically, we'll need to ensure we can order our dairy through them and ensure adequate refrigeration for multiple days.

We'll also need to coordinate with your AV/power team to ensure we have all our power needs met for operating our mobile coffee shop.

If your event is outdoors, we may need to plan with the event coordinator to ensure we have some sort of structure to protect us and our equipment from inclement weather.
